

Grant Agreement no. 101168698

BIOMAC-BP

## Bio-Stabilized Multi-Phase Materials as Carriers for Biopesticides

MSCA – Doctoral Network

HORIZON-MSCA-2023-DN-01-01

### D.6.1: Web site

Due date of deliverable: 30/11/2024  
First draft deliverable date: 26/02/2025

Actual submission date: 26/02/2025

**Start date of the project:**

01.10. 2024

**Duration:**

48 months

**Organisation name of lead beneficiary for this deliverable:**

Forschungszentrum Jülich GmbH

Revision [1<sup>st</sup>]

Project funded by the European Union's Horizon Europe research and innovation programme

Dissemination Level

Public

PU

Deliverable number: D.6.6  
Deliverable title: **Web site**  
Work package: WP 6  
Type of deliverable: DEC  
Dissemination: PU  
Deadline: 30/11/2024  
Report date: 26/02/2025  
Status of the deliverable:  Not yet started  
 In progress  
 Accomplished

## Work package objective

The main objective of WP 6 is to ensure effective coordination and management of the network, including monitoring the research, training and dissemination activities, financial management, reporting of the DCs progress and technical organisation of all network-wide events

## Lead beneficiary / person in charge

Forschungszentrum Jülich GmbH / Prof. Peter Lang

## Description of the work still to be done

A major relaunch of the website is planned when recruitment will be completed, i. e. around month 12 of project duration. Contents of the website will be continuously updated

## Deviations from original working plan

Deadline for this deliverable was 30 November 2024. The first version of the website could be implemented only in February 2025

## Identification of the problems

The delay was caused by lack of personnel.

## Description of the work done

The first version of the BIOMAC-BP website was set up and published using Word Press. The site is available at: <https://biomac-bp.eu/>

Currently the website is statically describing the BIOMAC-BP Doctoral Network and its scope and objectives. It has a basic contact form, providing external visitors with an easy option to contact the network responsables. Further, there is a section restricted to registered users, offering access to a cloud space hosted by the coordinator. This will be replaced by the BIOMAC-BP data repository hosted by the associated partner Area Science Park.
